YOUR SUBMISSION

Submission:

I put to you that you make Daniels Law possible. The number of sexual crimes In Australia is disgusting. I was raped at the age of 13. I thought this man was a friend. He was not. He groomed me. Since that day my life changed for the worse. I now have borderline personality disorder. My child brain could not cope with what he did to me. So it short circuited and left me unable to control my emotions. It left me believing I was worthless and put in this world to be abused and used by men.

Had Daniels law been in I believe I would have known to stay away from this man.

Please do everything in your power to bring this law in. Our children need protecting and we cannot do it alone.

Thank you.

Are you interested in appearing before the committee in person to talk about your submission?

Yes
