Subject: (1) Re: A T. Jaclyn Symes. Sending the rest as we sent to Tania Maxwell

These are copy's of our posts to Tania Maxwell's Victims of Crime. VOC. INVESTIGATIONS. To we are still to receive any conformation of after 3month of sending. Would you be interested in browsing our problem concerning our daughters ((unascertained))death & appears to have died from?, our concerns with the justice system, we can send it to your email to see if it fits in the criteria of VOC in your opinion, we would be so grateful as in the past we have been shunted ignored & lied to. The only statement received by all other authorities is see the coroner (ONLY) why has one public entity been given so much authority along with their ignorance & arrogance that they don't have to include other entities and are untouchable even to the point of lying to the Attorney General & he accepts it unquestioned.

Someone needs to audit their staff & qualifications & question their logic of their medieval practices. BUT never have we heard we have got it WRONG. The Judicial Commission are toothless or in cahoots, they have all info but came back with the trivial matters with answers of,,,,,,,,,,,,,,,,,,,,,are not related to the conduct of the Officer.Under the Judicial Commission of Victoria Act2016 (the Act), the Commission can only investigate complaints about judicial officers and non-judicial VCAT members. I have, therefore, dismissed this part of your complaint under section 13(2)(b) of the Act on the grounds that section 16(2)(b)of the Act applies.Section 16(2)(b) provides that the Commission must dismiss a complaint if it does not relate to a judicial officer or non-judicial member of VCAT.....I have, therefore, dismissed this part of your complaint under section 13(2)(b) of the Act on the grounds that section 16(2)(b) of the Act applies. Section 16(2)(b) provides that the Commission must dismiss a complaint if it does not relate to a judicial officer or non-judicial member of VCAT....It's all related to the coroner judge not doing his job.

Someone in Parliament gave these judges TOTAL independence, they don't have to answer to no one and it takes an act of Parliament to call them out.

Not sure if you are aware of coroners corruption in the USA before prohibition,evidently they had no one to answer to as they were given full reign without audit by gov officials,so

were open to FRAUD with offers of payments from relatives & perpetrators to cover a victims demise & hide facts of reported deaths for payment & it seems not much has changed with this Victorian practice.

When we started putting all our information together we thought we should also contact CRIMESTOPPERS & upon so the operator took an interest to the point he asked for a superior to take our concerns to which she showed a big interest till we mentioned the coroner & then she went cold and said no dice see ya.

The same happened with other GOV depts & state GOV,& the Attorney Generals dept. Plus when we sent in an appeal to reopen an investigation to Chief coroner Judge Ian Gray, there was no way of this happening & told if you want to pursue this you have to take it to the Supreme Court.(Judge against Judge). LOL.

So with not one single answer from this institution they shut up shop, THEY ANSWER TO NO ONE.(PLEASE).

.Would have thought our concerns would come under the category With VOC.

Item(3) an examination of how to ensure that judges and magistrates have appropriate knowledge and expertise when sentencing and dealing with offenders, including an understanding of recidivism and the causes of crime;

Item(4) the consideration of judicial appointment processes in other jurisdictions, specifically noting the particular skill-set necessary for judges and magistrates overseeing specialist courts.((Obviously not interested)).....

...AFP..... plus others.TOOTHLESS.

If this is supposed to TO BE A FORM OF CLOSURE I'm sorry but all of these people live in a sick world full of righteous and sanitized beliefs .The sad part of all this is nobody has approached saying we have it wrong, last week someone from Tania Maxwells office rang and asked if we approached the coroners Dr for answers and we responded with an email of why should we when if he unascertained

[REDACTED] death he didn't know himself. Now the real sad part about all this and our treatment, has to be I am sure that I had a solution to one of the states biggest cold cases kept inhouse till something was done for US, but now it will be treated in the same way as your constituent's have treated us over the last ten years, don't bother to ask.

Give our judges a break: it's a dirty job, and they have to do it - The Age

Judicial officers see a parade of human need, disadvantage and extremity before them every day. Credit: Nicolas Walker NKW Over the last year a lot of negative coverage of the state's judiciary ...

www.theage.com.au

QUOTE; From your peers. This is the same community that, despite its concerns about safety and crime rates, understands the value of judicial independence – the need for the judiciary to be free from the influence of other spheres, such as government or the media – when making decisions about an individual's liberty.

It appears nothing has changed and what happened to the three-member panel of judges commissioned by the Attorney-General. Who judges the judges?

A growing number of judges say Victoria needs a judicial conduct commission to examine complaints against them.
