YOUR SUBMISSION

Submission:

- Marijuana should be a regulated drug similar to the alcohol and tobacco industry, the government should tax this product and make it part of the legal economy.
- Legalising and regulating this drug would mean there would be a higher level of control of the substance as well as the quality of the substance in an effort to reduce overdoses or negative health related issues from unsafe or unregulated manufacturing/preparation of marijuana.
- If made legal. genuine business could be part of Australia's growing economy, and we could target international markets if we position ourselves as high quality producers of marijuana based products. We stand to gain an advantage by getting into/creating these markets early.
