Better Outcomes for Bodies Organs than Current Medicines

Select all that apply. Do you think there should be restrictions on the use of cannabis? :

Personal use of cannabis should be decriminalised.

(Decriminalised: there are no criminal or civil penalties instead a person is referred to a drug diversion program or other health/ treatment service),Personal use of cannabis should be legal. ,Cultivation of cannabis for personal use should be legal.,Other – please explain.

Age limits on use similar to alcohol even though the ramifications of alcohol are far worse than cannabis use

YOUR SUBMISSION

Submission:

Being based in NSW for months at a time and able to access medicinal cannabis legally for better health and health issues for Me and My Pet has seen life become healthier, sport/ work injury ailments relieved. I've seen first hand more serious health issues like Bone Cancers/ Chronic Pain, PTSD, Mental Health Issues and the list goes on relieved short and long term

Do you have any additional comments or suggestions?:

I have seen first hand the benefits of Medicinal Cannabis in Northern NSW and the quality of care legal providers have for the Communities based on better health outcomes compared to a system more focused on limited benefits, poor practices and kickbacks. Hemp Production in Victoria providing Medicine, Building Materials, BioFuel, Manufacturing and also Food is the premise of a product capable of short and long term solutions across many failing, toxic, water wasting deterioration of all life and health systems.
