**Drag the statements below to reorder them. In order of priority, please rank the themes you believe are most important for this Inquiry into the use of Cannabis in Victoria to consider::**

0

**What best describes your interest in our Inquiry? (select all that apply) :**

Individual

**Are there any additional themes we should consider?**

Mental health the main item, I couldn't seem to re-order the options.

**Select all that apply. Do you think there should be restrictions on the use of cannabis? :**

Personal use of cannabis should be decriminalised.

(Decriminalised: there are no criminal or civil penalties instead a person is referred to a drug diversion program or other health/ treatment service), Personal use of cannabis should be legal. , Sale of cannabis should be legal and regulated. , Cultivation of cannabis for personal use should be legal., There should be no restrictions.

### YOUR SUBMISSION

#### **Submission:**

My son suffers from ADHD and Depression and Anxiety. I would welcome legalisation so that I can trust the source of the materials he consumes from time to time. Legalising it will reduce risk of other substances being included in these products.

I believe with Covid, there must have been a huge increase in suicides and mental health problems. I understand cannabis can be useful in helping people with such issues. Obviously in moderation. My response is about quality control and also other countries have implemented it seemingly with little effect on their communities.

There seems to be more risk in alcohol consumption from what I have read about.
