YOUR SUBMISSION

For a good example, look at the United States. States have brought in massive amounts of tax funding from the legalisation of cannabis and have seen a decrease in illicit sales of it as well. Decriminalisation will allow many jail cells to be opened up to those who commit worse crimes and allow the general public to make a decision on their stance. Medically, it's already legalised. Why not go the full route and allow everyone to use it?

Do you think there should there be restrictions on the use of cannabis? :

Personal use of cannabis should be decriminalised.

(Decriminalised: there are no criminal or civil penalties instead a person is referred to a drug diversion program or other health/ treatment service), Personal use of cannabis should be legal. Sale of cannabis should be legal and regulated. Cultivation of cannabis for personal use should be legal. There should be no restrictions.
