YOUR SUBMISSION

Submission:

We need to legalize for the people to self medicate, and have access to despesorys to sell clean product to the people and the money from all the taxes would help to create new community's and infrastructure, it would create new jobs from farming too shops for despesorys

And by seeing how many Australians use the product there is a huge market there

Educate the public ,stop making people out to be criminals

We should be allowed to grow 4 plants per adult it's out rights to grow this amazing plant that could be used for so much good from rec too building materials the boundaries are endless

Do you have any additional comments or suggestions?:

This needs to be legalized ,there is no need to keep locking up people for growing and using a plant ,the money from this could go to very good use ,we need to be able to self medicate
