Your position or role:

SURVEY QUESTIONS

Drag the statements below to reorder them. In order of priority, please rank the themes you believe are most important for this Inquiry into the use of Cannabis in Victoria to consider::

Public health,Public safety,Accessing and using cannabis,Social impacts,Education,Mental health,Young people and children,Criminal activity

What best describes your interest in our Inquiry? (select all that apply) :

Individual

Are there any additional themes we should consider?

The economic and environmental benefits to Victoria, by getting large amounts of tax from cannabis, by stopping a source of funding for organised crime and terrorist, by not wasting our tax on ineffective and expensive cannabis eradication and policing projects. By making our country/state more self-sufficient in pharmaceuticals and health care, it's not as threatened by global trade wars or pandemics. Also if cannabis was to be re-legalised it would create a huge amount of jobs (more tax) in many different sectors and industries, from lab technicians to agricultural supply stores. There are many more benefits you should look into, but I don't have any more time.

Select all that apply. Do you think there should be restrictions on the use of cannabis? :

Personal use of cannabis should be legal. ,Sale of cannabis should be legal and regulated. ,Cultivation of cannabis for personal use should be legal.,There should be no restrictions.

YOUR SUBMISSION

Submission:

The science is in! Cannabis is not a dangerous plant, and it shouldn't be treated as such.

How much money has been wasted on policing and eradicating a plant that cures sickness?

How many lives have been destroyed and how much money wasted on imprisoning people for herbs?

How many children never saw their father cause of a draconian law that only benefits organised crime and alcohol and tobacco companies?

Interview David Heilpern, he just quit his career as a magistrate cause he couldn't look people in the eye (one of em was me) and destroy their lives for an unscientific unjust law.

Thank you,

Good luck and do the right thing

Do you have any additional comments or suggestions?:

Please do what is right, we have evolved for 100,000s of thousands of years with plants, not with pills, powders and syringes, and not with the American military pharmaceutical industrial complex.

Don't let us lose money on this like we do on our opium. Read about the global opium monopoly so we don't end up with a cannabis one. Tasmania would be the richest state in Australia if it got some of the profits from the opiates it produces.

Good luck and do the right thing
