Select all that apply. Do you think there should be restrictions on the use of cannabis? :

Personal use of cannabis should be decriminalised.

(Decriminalised: there are no criminal or civil penalties instead a person is referred to a drug diversion program or other health/ treatment service),Sale of cannabis should be legal and regulated. ,Other – please explain.

Cannabis for medical treatment should be supported as per all other proven medical treatments. It should not be held back by societal judgement on drug dealing as it should be managed officially and legally, through entirely different channels.

YOUR SUBMISSION

Submission:

we need an evidence based approach that does not seek to morally judge or colour things black/white, but rather seeks to minimise harm and negative impact on personal, mental and societal health. Too many people are not getting the help they need due to the fact that cannabis addiction is treated as a criminal offence.
