YOUR SUBMISSION

Submission:

Legalizing Cannabis for adults would immediately be a blow to the criminal black market. Having Government regulate cannabis will make it safer and bring in much needed tax revenue to the country instead of filling the coffers of criminal gangs. Legalizing cannabis will also free up police to focus more on very serious criminal behaviour and the funding can be diverted to other various health organisations as well.

Do you have any additional comments or suggestions?:

As I stated before Cannabis should not be available to only people that are 21 and under except in the case of approved medical treatment. The states would benefit by the tax revenue and would be able to regulate and control cannabis is grown and sold by strict growing guidelines. Because of the Coronavirus pandemic all states are in desperate need of revenue as well.
