YOUR SUBMISSION

Submission:
I was diagnosed with epilepsy three years ago
I went through a year of seeing drs being put on medication that caused more seizures with no real solution
I sourced thca oil online and have been able to keep seizure free for two years
I went back to my neurologist at Westmead Hospital to tell her about oil stopping seizures and to refer me to a cannabis dr, she kicked me out
I now can't travel on planes because I'm a criminal
I'm fearful to leave my house without my oil and if I do I may be arrested by police
Ivw spoken to a cannabis office and was given prices for legal access and it starts at 250 a week
I can get it online for $50 and it will last me three months
Don't forget as well no medication currently will stop a seizure while it's happening but cannabis will
Neurologist bring patients in to trigger seizures , which actually causes brain damage and don't stop them
It's traumatizing
