I think its time cannibas is leagl for rec use in victoria

Less dangerous than Cigarettes especially if the cannibas was sold professionally i.e a dispensary
(which could also help the economy from taxes)

There is the issue of people under age that could get their hands on, while that is a bad situation it happens with Alcohol and cigarettes but if its regulated at a professional level it could be harder for under age people to get there hands on cannibas
