

Inquiry Name: Inquiry into the use of Cannabis in Victoria

SUBMISSION CONTENT:

--

It's been a year since the ACT decriminalised cannabis. There have been no reported negative consequences - no increases in cannabis related hospitalisations, no spike in road incidents, etc. I hope the inquiry considers this.

I understand decriminalisation/legalisation would also be difficult given the federal govt.'s stance on the matter. Could an individual permit system be introduced to raise revenue for the state? Surely someone smarter than I am could figure this out.

I know there are concerns around young people accessing cannabis were it legalised. I think that, if we want to keep cannabis away from developing brains, we need to make it harder for young people to purchase weed. Regulation would achieve this aim.

I would like to see recreational cannabis use legalised for everyone, but especially chronic pain sufferers. We have so much information about the medicinal applications of cannabis that shows how beneficial it can be.
