### Do you think there should be restrictions on the use of cannabis?

(select all that apply) :

Personal use of cannabis should be legal. Sale of cannabis should be legal and regulated. Cultivation of cannabis for personal use should be legal. Other – please explain.

I'm not saying every acreage should be allowed to start a monopoly and partake in an underground market, But personal cultivations should be legalized, The price of cannabis on the street is only rising as the poverty line raises alongside it, many people with dependency or self medicating are struggling to provide for their needs. The individual sale can stay illegal for all I care but personal cultivation and regulated, medical concession sales are needed.
