**What best describes your interest in our Inquiry? (select all that apply) :**

Individual

My interest is in what is best for Victoria and the community, people should not be punished for cannabis related activities which are for recreational or medical use, as it is a victimless crime, it is not harming anyone, and would be beneficial for the government to legalize it as well as for the people.

**Do you think there should be restrictions on the use of cannabis? (select all that apply) :**

Personal use of cannabis should be decriminalised.

(Decriminalised: there are no criminal or civil penalties instead a person is referred to a drug diversion program or other health/ treatment service) Personal use of cannabis should be legal. Sale of cannabis should be legal and regulated. Cultivation of cannabis for personal use should be legal. Other – please explain. Road side drug tests are flawed. A trace amount in your system from 5 days ago isn't driving under the influence. There needs to be more accurate testing to catch those that think it's okay to smoke and drive and those that want to do the right thing.

### YOUR SUBMISSION

**Submission:**

Cannabis is a drug which is now more socially acceptable than ever. You can't stop an alcoholic from bulk buying alcohol and binge drinking it which is considerably more harmful. If people want to use cannabis, they will find ways to get their hands on it and use it. It's not something which can be stopped, on top of that with legalization it would allow more regulation regarding the safety of the drug and what is in it. As well as being something which can be taxed and another revenue source for the government.

Some people like to drink alcohol, others like to smoke cannabis. Moderation is the key with both of them, however the consequences of drinking could be considered to be worse.
