YOUR SUBMISSION

Submission:

As a former social user of Marijuana, I would like to have my say about decriminalizing use and allow recreational use as well as medical use for all Australian adults, not just Victoria. I suffer from a lot of pain from medical conditions, especially Nephropathy, and have found it keeps the pain at bay so much better than prescription medication. I don't believe in taking amphetamines, nor do i condone use of most of the medications i am prescribed, so sometimes i go without pain relief. I would feel a lot better about taking control of my own choices and my own body if Marijuana did not have the stigma and bad rap it seems to get from anti-drug organizations! The way i see this from experience since i was 23, is no one has died from smoking Marijuana, ever, and the worst thing to happen is the user goes out and buys a heap of snacks and watches a movie and crashes out... these people smoking socially DO NOT go out to do crimes, they are harmless. Take away the criminalization aspect, make it legal for adults and watch most of the crime from hiding it through black market go away => Thank you! (p.s. Imaging the jobs this will creat, and the tax and revenue for the government! win win! =>)
