### YOUR SUBMISSION

It's time to change the out dated laws around cannabis use. It's a plant that has many benefits and can stimulate the economy with sales taxes and income tax with a huge employment stream. Take the income away from criminals and put it back into health care and education! It's less harmful then alcohol and cigarettes yet it's still illegal it doesn't make sense whatsoever and just because something becomes legal doesn't mean you will have more people using the drug that argument it's completely false and Untrue. I would like to be able to use if I choose to without having the stigma and illegal element, we should take note of the countries that have legalized cannabis and see that the world won't end and collapse into chaos and utter madness.

**Do you have any additional comments or suggestions?:**

Please legalize cannabis for personal use, its time to get with the times and see it for what it is!

**Do you think there should there be restrictions on the use of cannabis? :**

Personal use of cannabis should be legal. Sale of cannabis should be legal and regulated. Cultivation of cannabis for personal use should be legal. There should be no restrictions.
