### YOUR SUBMISSION

As anyone who has smoked cannabis regularly knows it should never have been made illegal in the first place. We all know it's not a health tonic but it is far less harmful than alcohol or cigarettes, is not addictive and (unlike Alcohol or Cigarettes) does not cause people to die from its use. Marijuana is less harmful than donuts, it is time it was treated in a way that reflects this reality.

Enough of this ridiculous prohibition, enough of the huge waste of public resources & punishing of innocent people, and enough suppression of a relatively harmless and potentially highly lucrative industry.

America dragged Australia into this current prohibition stance and even they are realising it is absurd and are starting to legalise it for recreational use in many states, it is beyond time for Australia to do the same.

Please stop this madness, make marijuana legal for medical and recreational use.

Personal use of cannabis should be legal. Sale of cannabis should be legal and regulated. Cultivation of cannabis for personal use should be legal.
