Individual

**Are there any additional themes we should consider?**

### YOUR SUBMISSION

Many males who suffer from anxiety and socializing issues may have trouble being able to find mental health support and having access to not only cbd (as an over the counter without a prescription medicine since it is non-psychoactive) for use in helping people with anxiety issues but also thc products for adults who wish to experience a psychoactive substance beyond alcohol (a substance that causes close to 6000 deaths a year in Australia) would not only be a positive for victoria as a whole but it would also decrease ex-posure to criminals for those seeking to use cannabis as well as generating millions of dollars in tax revenue if said sale of cannabis where to be regulated and taxed.

By regulating cannabis sale you would decrease the access that people under 18 would have to it as regulation could possibly put dealers out of business.

A step towards cannabis legalization is a step towards a more crime-free victoria!

**Do you have any additional comments or suggestions?:**

**Select all that apply.**

**Do you think there should there be restrictions on the use of cannabis? :**

Personal use of cannabis should be decriminalised.

(Decriminalised: there are no criminal or civil penalties instead a person is referred to a drug diversion program or other health/ treatment service), Personal use of cannabis should be legal. Sale of cannabis should be legal and regulated. Cultivation of cannabis for personal use should be legal. There should be no restrictions.
