Individual

Are there any additional themes we should consider?

YOUR SUBMISSION

Cannabis is nowhere near as dangerous as alcohol or hazardous as tobacco, because it is already safely used by Australians, in all walks of life.

Prohibition of marijuana has disproportionately affected the struggling communities of Australia and it is time to stop punishing the growers, distributors, workers and consumers.

The Australian marijuana industry exists and it should be regulated and taxed. We have the knowledge and tools from the current drugs we do regulate and tax; Plain packaging, Age identification, No advertisements, No smoking areas.

With a regulated cannabis industry we can prioritise employment opportunities instead of continuing on the same path of punitive measures that do nothing but further harm in our communities.

Cannabis use exists in Australia. It has been here since before Federation, and it will continue exist well into the future. It is time.

End Prohibition Now.

Do you have any additional comments or suggestions?:

In the same way that responsible adults can brew and distill their own alcohol, it is important that those same adults are afforded the right to grow their own cannabis plants.

Select all that apply.

Do you think there should there be restrictions on the use of cannabis? :

Personal use of cannabis should be decriminalised.

(Decriminalised: there are no criminal or civil penalties instead a person is referred to a drug diversion program or other health/ treatment service), Personal use of cannabis should be legal. Sale of cannabis should be legal and regulated. Cultivation of cannabis for personal use should be legal.
