### YOUR SUBMISSION

I believe that we should follow medical advise and as well as that look to other jurisdictions and what had worked to minimise any harm from cannabis usage which is mainly from having to access it illegally. Many people have health benefits, many people use daily, very few are ever doing anything illegal aside from buying it. They're active members of society who are otherwise not a problem to society

**Do you think there should there be restrictions on the use of cannabis? :**

Use of cannabis should remain legal for medical treatment only. Personal use of cannabis should be decriminalised.

(Decriminalised: there are no criminal or civil penalties instead a person is referred to a drug diversion program or other health/ treatment service), Personal use of cannabis should be legal. Sale of cannabis should be legal and regulated. Cultivation of cannabis for personal use should be legal.
