YOUR SUBMISSION

I believe that cannabis should be legalized for those over the age of 21.

There are far less risks compared to alcohol and tobacco, and the current system stigmatizes those who use cannabis to a degree that causes users to become jaded and uninterested in society.

I believe that regulating cannabis will also make it safer due to certainty of purity and content, and will allow those interested in CBD strains to access it safely without THC if so desired.

I believe education on cannabis will also become easier if legalized, and will better reach those who use cannabis.

I also believe that legalisation will help to restore faith in the system and that the best interests of society are legitimately at heart.

Do you think there should there be restrictions on the use of cannabis? :

Personal use of cannabis should be legal. Sale of cannabis should be legal and regulated. Cultivation of cannabis for personal use should be legal. There should be no restrictions.
