YOUR SUBMISSION

Submission:

* assess the health, mental health, and social impacts of cannabis use on people who use cannabis, their families and carers;

As someone that is now legally prescribed cannabis i am writing this submission in the hope that

others don't have to go through the same pain and suffering i have to access their medicine. I run my own small business, play sports and am a worthwhile and contributing member of society yet due to my use of cannabis i am labeled a loser and other things associated with the typical stoner stereotype.

Do you have any additional comments or suggestions?:

I hope as a society we can move forwards on this and see the plant for what it is.. a medicine that can heal. It needs to be legalized, regulated and young people need to be educated on its benefits as well as the possible negative impacts of its use.

Are you interested in appearing before the committee in person to talk about your submission?

Yes

Confidentiality:

I request the Committee publish my submission, but remove my name.
