### YOUR SUBMISSION

Hi there

I believe that legalising Cannabis would be an amazing opportunity to built the post-covid-19 world, but Cannabis must be regulated by the state. The law must focus on creating a sustainable system by the community, for the community.

Generous personal possession limits, home cultivation, on-site consumption at licensed businesses and events focused on craft cultivation, are in my opinion the keys to create a sustainable policy.

After this inquiry, I believe that the Victoria government should create a committee representing the Victoria social landscape and create a public debate about a Cannabis bill.

**Do you think there should there be restrictions on the use of cannabis? :**

Personal use of cannabis should be decriminalised.

(Decriminalised: there are no criminal or civil penalties instead a person is referred to a drug diversion program or other health/ treatment service), Personal use of cannabis should be legal. Sale of cannabis should be legal and regulated. Cultivation of cannabis for personal use should be legal.
