Are there any additional themes we should consider?

Select all that apply. Do you think there should be restrictions on the use of cannabis? :

Use of cannabis should remain legal for medical treatment only. ,Personal use of cannabis should be decriminalised.

(Decriminalised: there are no criminal or civil penalties instead a person is referred to a drug diversion program or other health/ treatment service),Personal use of cannabis should be legal. ,Sale of cannabis should be legal and regulated. ,Cultivation of cannabis for personal use should be legal.,There should be no restrictions.

After going to the Netherlands on frequent occasions I believe cannabis should be at least decriminalised and regulated. Where the tax from the sales of cannabis goes back into the community. It takes away the crime part of it and frees time for the police to concentrate on more important crimes. But also in the Netherlands there is restrictions on where you can consume cannabis for example near schools or playgrounds which is completely understandable. Also the medical benefits of the plant Would help a lot of people who have various conditions.

YOUR SUBMISSION

Submission:

I would like to recommend that Victoria should legalise the use and cultivation of cannabis.

I will also like to recommend the there should be no smoking near a school or kindergarten of at least 250 meters this would also include play grounds.

Do you have any additional comments or suggestions?:

It is a waste of police and government resources fighting this losing battle against a plant. If it's regulated then the money can go back to the community for the better of the nation and someone who consumes cannabis is not as likely to go out in the public and cause trouble as say some one who is drunk and disorderly they would rather be at home relaxing.
