Personal use of cannabis should be decriminalised.

(Decriminalised: there are no criminal or civil penalties instead a person is referred to a drug diversion program or other health/ treatment service), Personal use of cannabis should be legal. , Sale of cannabis should be legal and regulated. , Cultivation of cannabis for personal use should be legal., There should be no restrictions.

YOUR SUBMISSION

Submission:

Cannabis consumption and use in the capacity of personal consumption is a victimless crime. No other person should have the authority to morally condemn a person for doing what they choose to with their body. A robber Barron may rest but a moraliser will not, for they believe they are working in the best interest of those they oppress. Dictatorial technocratic leadership invariably fails, due to the sheer presumptive arrogance required to believe that one person could ever effectively dictate the lives of millions, better understanding the needs of their lives than them. I would encourage the committee to consider this, Cannabis has dangers - although they are few - it does have danger. However the war on drugs is a war on individual liberties, it is a war that was lost before it began, it is a war from the ideologue busy bodies at the top, defecating down into the mouths of those they consider too stupid to be able to drink water on their own.

Do you have any additional comments or suggestions?:

I do not consume cannabis and anything I say is merely a means of political expression.
