YOUR SUBMISSION

Submission:

Largely my interest is in:

1. People with both short term and ongoing medical issues being able to have cheap and easy access to cannabis related solutions for pain and symptom management
2. Doctors not using their personal or religious beliefs to block someone from having access
3. Take money away from the criminals and give it to the government via taxes
4. Having more options (edibles etc) for medical use other than expensive tinctures
5. Cost effective cannabis related solutions for cancer patients to have access to products that will increase their appetite and decrease their pain
