Personal use of cannabis should be legal. ,Sale of cannabis should be legal and regulated. ,Cultivation of cannabis for personal use should be legal.,Other – please explain.

At a minimum, you can start but allowing medicinal use only and making it legal for individuals to cultivate; then legalisation across the State.

### YOUR SUBMISSION

**Submission:**

You can start but allowing medicinal use only and making it legal for individuals to cultivate; then legalisation across the State. I have a medical condition that am aware cannabis could assist with, however, I do not like to break the law. It is my sincerest hope that at a bare minimum cannabis should be legal for medical treatment. Furthermore, if it were legal, less would be inclined to partake in 'illegal' substances (i.e. it is temptation of the forbidden).

**Do you have any additional comments or suggestions?:**

It truly is my sincerest hope that Victoria changes the laws surrounding cannabis, so that it is normalised and that law-abiding citizens such as much can have legal access to something that is known to assist with chronic illness and medicinal side effects.
