Select all that apply. Do you think there should be restrictions on the use of cannabis? :

Personal use of cannabis should be legal. ,Sale of cannabis should be legal and regulated. ,Cultivation of cannabis for personal use should be legal.,There should be no restrictions. ,Other – please explain.

Cannabis sales should not be regulated apart from age restrictions. The example in Canada shows that over regulation leads to poor quality cannabis products flooding the system due to financial incentives for startups to produce at low quality. Many people are still buying from the black market. Barriers to entry should be minimal and small businesses should be free to enter the market with high quality offerings.

YOUR SUBMISSION

Submission:

It's crazy that cannabis is still illegal and alcohol and cigarettes are freely available. Cannabis is not only drastically safer it also has numerous proven benefits to health and wellbeing.

Cannabis prohibition is a layover from religious and political discrimination against non-mainstream minorities and it's time we acknowledge it was a mistake.
