YOUR SUBMISSION

Submission:

Cannabis has been a godsend for treating ptsd. It has given me the ability to maintain employment and relationships beyond any other kind of therapy or medicine. A little joint and i can look in the mirror and go to sleep not seeing the terror of my childhood.

The idea that I could be locked up for using something to help a problem that has other solutions with far more negative side effects.

Zoloft, I sprayed out both ends for 6 weeks.

Avanza, liver stops woworking.

Efexor xr, siesures and lethargy.

A lil joint after dinner, one happy, productive member of society.

Do you have any additional comments or suggestions?:

Just please give people access to a life saving form of medicine and a safer version of things that are already available.
