What best describes your interest in our Inquiry? (select all that apply) :

Individual

Are there any additional themes we should consider?

Select all that apply. Do you think there should be restrictions on the use of cannabis? :

Personal use of cannabis should be legal. ,Sale of cannabis should be legal and regulated. ,Cultivation of cannabis for personal use should be legal.,There should be no restrictions. ,Other – please explain.

The sale of cannabis should be a combination of a government run operation (whereas it would be state owned) and have the possibility for licensed businesses to sell the drug under strict rules and regulations. This would allow for the use of cannabis to be destigmatised and reduce/eliminate the criminal business operations that currently provide this drug and more dangerous illicit drugs due to the community now having easy and safe access to cannabis.

Additionally this could be a perfect new form of state income that could be used to fund education of safe/responsible use of cannabis and also be used to educate the community on the dangers of other illicit drugs.

YOUR SUBMISSION

Submission:

Regarding point d. I believe that the legalisation of cannabis would greatly reduce the amount of drug crime that occurs with this substance. I believe this because if it is available through legal channels then the trade of this substance through illegal means would be diminished as there would be less of a market for it.
