**Submission:**

I have no interest in Cannabis, but believe it should be available under regulation to those who do wish to access it in a safe and legal manner. I also wish to see Victorian business' profit off this product in the same way they do from Alcohol.

**Do you have any additional comments or suggestions?:**

I believe this is a basic matter of personal liberty, it should have the same restrictions as tobacco consumption and subject to the decision making of the individual regarding personal use, with adequate education available to the public on safety.
