YOUR SUBMISSION

Submission:

Cannabis is a drug that has long been shown to be no more harmful than the already legalised and regulated alcohol sector. It is also shown to be less detrimental to health and is greatly less likely to cause someone to act in a violent and dangerous manner unlike the aforementioned alcohol.

Cannabis has been shown to be greatly beneficial to numerous health issues including ones that are far simpler than currently allowed in Victoria under the medicinal cannabis rules. It can be used to fight many mental illnesses with less invasive drugs than currently utilised.

It will have an amazing effect on society due to these reasons and it will also free up policing power and the courts for more important issues. It will help reduce drug related crimes.
