### YOUR SUBMISSION

**Submission:**

Of the many countries in the world that Australia can be adequately compared to, Canada comes to mind. Similar history, similar demographics, culture is largely along the same lines if you exchange hockey (ice hockey) for Football (of all codes).

Canada has legalised Cannabis for quite some time now, and is the better for it. Cannabis is legally available at many channels, in high quality and for reasonable prices. There has been no overdoses, no epidemics - it is a highly successful model of what can be achieved with very minimal effort.

This is a no brainer.

**Do you have any additional comments or suggestions?:**

Just legalise it already. It's 2020.
