YOUR SUBMISSION

Submission:

Legalization of cannabis has many benefits.

- Takes income away from criminal organizations and creates a new billion dollar industry which can be taxed by the government.
- Revenue would be able to help fund important industries such as healthcare, education, infrastructure, etc.
- Minors would not be able to access cannabis as it would be regulated and sold in a store like alcohol with an 18yo+ limit.
- Citizens would be more trusting of authority if legalization was passed. This is critical as we are in a pandemic with freedoms being limited. Distrust of government can also be especially dangerous during this time.
- It has been scientifically verified that the use of cannabis provides beneficial medical effects.
