YOUR SUBMISSION

Submission:

While I am not a user of cannabis for recreational use, I believe its legalisation and regulation can only benefit public physical and mental health, by improving:

- Education around the safe use of cannabis products: i.e. quantities, differentiation of strains, benefits of edibles vs smoking
- Consistency of quality of cannabis products
- Easier access to cannabis products for medicinal uses, when chemical treatments are available but not preferred by patients
- Expression of creativity and human connection
- Safety of acquisition of cannabis products

Additionally, I believe the legalisation and regulation of the sale & consumption of cannabis products in Victoria would lead to increased business opportunities, linked to the production and sale of cannabis plants, growing supplies, edibles, CBD/THC products, etc.
