YOUR SUBMISSION

Submission:

I believe the use of THC & CBD cannabis products should be legalised for both medical and recreational use. The overwhelming abundance of reputable scientific evidence shows clear benefits of cannabis (both THC & CBD) use for both medical and recreational purposes, as well as the positive impact it can have on the respective economy if effectively regulated. It is by far one of the least harmful substance, both legal and illegal, as it is non-addictive, has only relatively minor side-effects (if any), and has an infinitesimal mortality rate (no deaths have been directly linked to cannabis overdoses). And it's not a gateway drug, plain and simple.
