Do you have any additional comments or suggestions?:

It's no mystery that a stigma has arisen towards marijuana use in Victoria, in addition to cannabis use in general. I strongly disagree that it should be legalised, however I do believe decriminalisation and cultivation for personal use should be made legal. I've found that a lot of individuals these days are smoking 'bad weed' (hydro and pgr). It's unhealthy! Get the 'bad weed' off the street and bring clean cultivated weed into the cycle. Alcohol is deadly, it is physically addictive. Cannabis is not. When individuals describe 'weed addiction', they're simply referring to the mental dependence that people develop. It is not a drug, it is a plant. A party full of stoners is far safer than a party full of drunkards.
