Submission:

Re preventing young people / children from accessing cannabis in Victoria:

- I believe this would be handled at a minimum like tobacco. Not advertised, displayed in stores and restricted to Adults. Even increasing min age to low-mid 20's, or when scientists say the brain has fully developed. So maybe only available in chemists even. However I don't think it should require a prescription.

RE prevent criminal activity relating to the illegal cannabis trade in Victoria:

- I believe criminal activity if legalized will become a thing of the past when it comes to cannabis. And the taxes this could raise for the state, especially in these times, could only be good. Better than users buying it illegally at present and that money going to illegal drug dealers.

Do you have any additional comments or suggestions?:

Please see reason and logic here. This could be such a positive move for State, for so many reasons.

Thanks.
