YOUR SUBMISSION

I believe recreational and medical marijuana should be legalised and taxed, I believe that using the extra tax should be used to subsidise electric car purchases to offset the loss in road use tax that is currently on petrol. Keeping the money out of drug dealers pockets is important and I personally would much rather that money go to better use. But it would be important to perfect the penalties and information to stop being driving while effected by marijuana such as has happened with alcohol.

Personal use of cannabis should be legal. Sale of cannabis should be legal and regulated. Cultivation of cannabis for personal use should be legal. There should be no restrictions.
