Roger +Maureen Mason  

We are residents of  we are in our 9th year living here. We are concerned with a few things, where we live we paid an extra \$40,000 to be over looking the Big Fish Lake, it looked beautiful then, always full of water, lovely surroundings, now the water level is well down because the water is being diverted , the surrounding bank needs a lot of attention, early days they say the will maintain these things, but very little is being done, we are worried our village will start looking run down, We love living here, we think having an Ombudsman, who would listen to our concerns, would help us greatly,

Regards

Roger+Maureen Mason
