

The Parliamentary inquiry.

For sometime we have had concern over the cost of Council Rates, as there only service is collecting our weekly waste, the rest such as, Roads, lawn mowing, street light Gardening, is done by the owner and management of our village of which we pay a resident levy, we have been in the Village 2½ years I find it "OK", but my concern is costs keep going "UP" my pension dose not.

It is difficult to resolve issues, we do have a community for residents, but sometimes, go around in circles and get nowhere, it would be better if we had an umpire such as an ombudsman to help.

Thank you yours faithfully

Cavell
