Submission to parliament of Victoria Inquiry into the Retirement Housing Sector

7/6/2016

I am new to a retirement village and I'm very unhappy that the Geelong Council will not give us cheaper rates – even though the government said they can.

On top of this I find out that, in our monthly fees we have to pay for services council are supposed to provide.

We have to make our own roads, trim our trees, pay for electricity for street lighting, and do our own footpaths.

Please make it compulsory for councils to give us differential rates.

And, perhaps give us an Ombudsman to go to for help.

Yours sincerely,

Brigita Robins
