Complaint/or experience:	<p>FOR SOME 12 YEARS, this village has complained about the critical need of a crossing across McLeod Rd, from the village entrance/exit. All manner of excuses and promises (from a personal visit & firm undertaking from DANIEL ANDREWS himself) that funds would "immediately" be made available, to establish a crossing. This undertaking, publicly given to a full village meeting, 3 1/2 years ago. And now, we are told we must wait until all the level crossings are built!! An absurd excuse, when one considers the \$60,000 promised, a very negligible figure that surely could not affect even a single level crossing. What has happened to your expressed concern and an obvious lack of integrity Mr. Andrews?</p>
