Address [Required]	[REDACTED]
Suburb [Required]	[REDACTED]
Postcode [Required]	[REDACTED]
My Submission	<p>Non completion of retirement village</p> <p>My Issue or Problem</p> <p>When we purchased our house at [REDACTED] we were told that the clubhouse & swimming pool would soon be built. We were also assured that the village would be completed within the next year. Four years later the community centre is still not started and the village is only 50% built. Because there are not enough completed houses the monthly fees are insufficient to cover the costs of maintenance & repairs. The gardeners have gone & we are reduced to 1 maintenance person part time.</p> <p>My Solution</p> <p>The developer needs to "Put his money where his mouth is" and not make empty promises about when the village will be completed. We need to have the whole village completed ASAP. An incomplete village which looks like a building site is not attracting prospective buyers, and is not a pleasant environment for the residents.</p>
