My Submission		
My Issue or Problem		
<p>When we were considering moving to [REDACTED] we were told there would be a Club House, swimming pools, a small shops, a bistro and a high care facility built here. So far none of these promises have come to fruition. We were also told Sand + Soil would be moving to an industrial area thus eliminating dust, noise and traffic problems. We were also told our front gardens would be maintained by Kithbrooke + our front windows cleaned. Promised BUS service for those who don't drive.</p>		
My Solution		
<p>I think there should be a Retirement Housing Ombudsman appointed by the Victorian Parliament to protect residents rights making sure of fair pricing and consistent, simplified management across the sector.</p>
