My Issue or Problem	<p>Things that were promised when signing a contract are not being fulfilled and now being told you don't go by a contract as it changed all the time which is false advertising and that should be made liable. Paying for things we are not getting in our service fees. Wanting to put fees up because they are losing money. <u>Not our Fault</u>. need to get on with building to bring in more money.</p>
My Solution	<p>Make the more accountable or <u>Fine</u> them.</p>
