<p>My Issue or Problem</p> <p>The only positive thing about moving into this village has been the affection and reliability of the residents. After five years, the list of amenities on the 'contract' given to me - the clubhouse, pools, gymnasium etc. are still not available. Various economies are taking place because there is no money available.</p>	
<p>My Solution</p> <p>Villages should be complete with all promised amenities before opening to retirees.</p>
