I am a resident living in a retirement Village and these are the matters I wish to bring to your attention as to what us as residents have had to endure over the years.

If there had been an ombudsman in the industry many of these things would not have happened or they would have been resolved quicker and at far less cost.

Cracking in walls and ceiling inside and out 2006-2016 – Contract ambiguity

The Contract states that I am responsible for the inside of my house. That is all well and good but the workmanship I faulty to start .As a leaseholder , where does the repair stop and the structure begin. How big has a crack got to be, I can see daylight, there is a draft..is that enough?. This has worried me ever since I came in, there have been cracks on the outside of units including mine. I came into the village to enjoy my life what was eft I worry how bad the cracks have to be to be fixed, how long do I have to pay for hefting before it is fixed? The Committee of Management have battled with this for years and finally in 2016 they has accepted responsibility and fixed the problems after the village engaged a Consultant to help the Committee fight for a fair outcome. An ombudsman means I would have been able to state my case and have a fair hearing and hopefully some action within a shorter period of time.

Footpaths– Contract ambiguity

Our village is unsafe, there are not enough paths for us to walk on and we have to walk on the narrow roads, the paths are so old they are a tripping hazard and need to be replaced. I worry that I'm not as good on my legs as I once was and if I fall I will do extensive damage to myself. I know the Committee of Management does the best it can sanding down the areas but the paths need to be replaced and due to the cost the corporate owner doesn't address the issues and nothing gets done. I like to walk and I find that this has impeded by health as I cannot safety walk around the village.
