**SUBMISSION CONTENT:**

--

I am a resident and former member of the Committee of Management. During my time as a Committee member I was put under a lot of pressure with regards to the development, it affected by health and wellbeing. residents put me under pressure phoning late at night wanting to know what was happening. I spent 2 weeks in hospital - stress related. I could not go outside my door without being asked about the progress.

We should never have had to deal with the matter and an Ombudsman would have been able to help resolve the matter by making the Corporates do the right thing
